

About California Proposition 65

California's Proposition 65 entitles California consumers to special warnings for certain products that contain chemicals above certain threshold levels. We are providing the following warning for products linked to this page

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Tools

California requires the following notice:

WARNING: Some dust created by power sanding, sawing, grinding, drilling, and other construction activities contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Some examples of these chemicals are:

- lead from lead-based paints,
- crystalline silica from bricks and cement and other masonry products, and
- arsenic and chromium from chemically treated lumber.

Your risk from exposure to these chemicals varies, depending on how often you do this type of work. To reduce your exposure, work in a well-ventilated area and with approved safety equipment, such as dust masks that are specially designed to filter out microscopic particles.

Electrical Cords

California requires the following notice:

WARNING: The wires of this product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

Motor Vehicles

California requires the following notice:

WARNING: Motor vehicles contain fuel, oils and fluids, battery posts, terminals and related accessories which contain lead and lead compounds and other chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. These chemicals are found in vehicles, vehicle parts and accessories, both new and as replacements. When being serviced, these vehicles generate used oil, waste fluids, grease, fumes and particulates, all known to the State of California to cause cancer, birth defects, and reproductive harm.

Canned and Bottled Foods and Beverages

California requires the following notice:

WARNING: Many food and beverage cans have linings containing bisphenol A (BPA), a chemical known to the State of California to cause harm to the female reproductive system. Jar lids and bottle caps may also contain BPA. You can be exposed to BPA when you consume foods or beverages packaged in these containers. For more information go to: www.P65Warnings.ca.gov/BPA.

Coffee and Some Roasted Nuts, Baked Goods and Snack Foods

California requires the following notice:

WARNING: Chemicals known to the State of California to cause cancer and birth defects or other reproductive harm, including acrylamide, are present in coffee and some roasted nuts, baked goods and snack foods such as chips. Acrylamide is not added to these products, but results naturally from the roasting, baking or cooking process. The FDA has not advised people to stop consuming foods that are fried, roasted, or baked. For more information regarding the FDA's views, visit www.fda.gov.
